

PLEASE READ

Thank you for your purchase of a **BOOGHEY LIGHTS® Super Bright LED American Flag!** If you need assistance or have questions, we can be reached online at BoogeyLights.com or via phone at 800.847.1359.

No assembly required. This flag is ready to go out of the box provided you have the proper power source available. The flag is 40" wide by 21" high by 1.5" deep. They weigh 18 pounds. The frame is powder coated steel.

POWER REQUIREMENTS. The flag uses 12vdc LEDs with max draw of 3 amps. Includes 12vdc power cord to be wired directly to any 12vdc power source capable of supplying 3amps, 12vdc. We offer an optional 120/110vac to 12vdc converter if desired.

DISPLAYING. The unique design allows for viewing from both sides. Ideal for displaying outside your RV, home use for parties, pool side, game rooms or on your patio, deck, front porch, sporting event, front yard or anywhere you want to show off your RED, WHITE and BLUE pride. They can be staked into the ground, hung by wire, lean them against a rigid surface or use our optional suction cup mounts.

DESIGNED TO BE A TEMPORARY DECORATION. The LEDs in this flag are encased in a UV protected plastic to preserve brightness when used outdoors however the plastic will fade over time. This is particularly true if the flag is left outdoors in direct sunlight for extended periods of time. The flag is not intended for or built to be used as a permanent fixture left outdoors 24/7. It's intended to be used as a temporary decoration primarily in the dark.

OPTIONAL SUCTION CUP MOUNTS. We offer an optional suction cup mounting system for this flag. Quickly attach your LED flag to any smooth non-porous surface. Ideal for the side of RVs, walls or glass surfaces. Our optional suction cup mounting kit includes 2 industrial strength, locking suction cup mounts with post to temporarily mount the LED FLAG. Not recommended for use over decals or wraps.

We offer a 90 Day original owner warranty against product defects.
